

IS YOUR RIGGING SAFE DEMONSTRATION

DID YOU KNOW?

OH&S Reg. 229 states, "An employer or contractor shall ensure that all rigging and components of rigging are inspected thoroughly at appropriate intervals and visually inspected before use..."

At the Northern Strands *'Is Your Rigging Safe Demonstration'* we will be pulling rigging to destruction on our mobile test bed. We will also provide education on safe lifting practices and proper rigging inspection.

- Do you ever wonder if the rigging you are using is safe?
- Have you ever seen what:
 - overloading can do to the W.L.L.?
 - what cuts and knots can do to the W.L.L.?
 - your working environment can do to the W.L.L.?
- Do you know how your lifting application affects the working load limit?
- Are you familiar with the OH&S regulations for rigging?

DID YOU KNOW?

The working load limit can vary between different types of rigging hardware?
